

Foreword by the Graduate Tutor

This Induction Programme will welcome you to Emma and aims to make you feel at home as quickly as possible. As you will gather, there are many people here who are happy to help you if anything is unclear or if you have difficulties. If you have a question or a problem then do ask!

We do our best to put you at your ease in your first few days as a graduate student, but don't be lulled into a false sense that graduate life is nothing but dinners and social activities! Your course will start quite quickly and will start making demands on you almost immediately. It is important not to be taken by surprise by this and to get into appropriate habits of work right from the start. Don't be surprised, either, if the pattern of your work as a graduate student is different from what you have been familiar with in the past.

I wish you well with your course and hope you have a fulfilling time here both academically and socially!

Some of the activities in the programme are compulsory or highly advisable: they are shaded in pink. Other activities are more optional.

Events organised by the Middle Combination Room (MCR) Committee or the Emmanuel College Students' Union (ECSU) are shaded in blue.
